1. NATURE OF OPERATIONS AND ABILITY TO CONTINUE AS A GOING CONCERN

The Company was incorporated under the laws of the Province of British Columbia on January 12, 1987. The Company's common shares are trading as a mining issuer on Tier 2 of the TSX Venture Exchange under the trading symbol KDK.

On April 1st, 2020, the Company changed its name from Dunnedin Ventures Inc. to Kodiak Copper Corp. and shares commenced trading on the Toronto Venture Exchange under the ticker symbol (“KDK”) on the basis of five (5) pre-consolidation shares to one (1) post-consolidation share.

All share and per share amounts are shown on a post-consolidated basis retroactively throughout these consolidated statements.

The Company's activities consist of the exploration and development of base and precious metals throughout North America. The head office and principal address of the Company are located at 1020 – 800 West Pender Street, Vancouver, BC V6C 2V6.

As the Company is in the exploration stage, the recoverability of amounts shown for exploration and evaluation assets and the Company's ability to continue as a going concern is dependent upon the discovery of economically recoverable reserves, continuation of the Company's interest in the underlying resource claims, the ability of the Company to obtain necessary financing to complete their development and upon future profitable production or proceeds from the disposition thereof. The amounts shown as exploration and evaluation assets represent net costs to date, less amounts amortized and/or written-off, and do not necessarily represent present or future values.

The Company incurred a net loss of \$4,897,356 during the six months ended March 31, 2021 and, as of that date, the accumulated deficit was \$59,551,566. The Company expects to incur future losses in the development of its business. While these condensed interim consolidated financial statements have been prepared with the assumption that the Company will be able to meet its obligations and continue its operations for its next fiscal year, the aforementioned conditions indicate the existence of material uncertainty which may cast significant doubt on the Company's ability to continue as a going concern. Realization values may be substantially different from carrying values as shown and these consolidated financial statements do not give effect to adjustments that would be necessary if the Company were not to continue as a going concern.

The novel coronavirus (“COVID-19”) has caused many countries to implement measures to reduce the spread of the virus. The effect and duration of COVID-19 and government responses to it are unknown. Consequently, management anticipates, but cannot predict the effect of unknown adverse changes to its future business plans, financial position, cash flows, and results of operations, and as a result the Company has written down its Kahuna project to zero (see note 5d).

Statement of Compliance

These condensed interim consolidated financial statements for the six months ended March 31, 2021 were prepared in accordance with International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”) and Interpretations of the International Financial Reporting Interpretations (“IFRIC”) in effect at March 31, 2021. The Company has elected to present the statements of operations and comprehensive loss in a single statement. The condensed interim consolidated financial statements of the Company for the six months ended March 31, 2021 (including comparatives) have been prepared by management, reviewed by the Audit Committee and approved and authorized for issue by the Board of Directors on May 26, 2021.

2. BASIS OF PREPARATION

Critical judgments in applying accounting policies

The preparation of these condensed interim consolidated financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the condensed interim consolidated financial statements and reported amounts of expenses during the year. Actual results could differ from these estimates.

These condensed interim consolidated financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the consolidated financial statements and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Certain comparative figures have been reclassified to conform with the current year presentation. Certain comparative figures have been reclassified to conform with the current year presentation.

3. SIGNIFICANT ACCOUNTING POLICIES

New standards, interpretations and amendments adopted by the Company

The accounting policies applied in the preparation of these condensed interim financial statements are consistent with those applied and disclosed in the Company's audited financial statements for the years ended September 30, 2020 and 2019, except for the adoption, on October 1, 2019, of ***IFRS 16, Leases and IFRIC 23, Uncertainty over Income Tax Treatments*** which has an initial application as at this date.

The newly adopted IFRS 16, Leases standard establishes principles for recognition, measurement, presentation and disclosure of leases with an impact on lessee accounting, effective for annual periods beginning on or after January 1, 2019. The Company has assessed its office lease agreement and concluded that the agreement does not constitute the ability to direct the use (right to use) of the underlying office premises in the context of IFRS 16. As such, the adoption of the above standard has not had an impact on the results and financial position of the Company.

The newly adopted IFRIC 23, Uncertainty over Income Tax Treatments clarifies the accounting for uncertainties in income taxes. The interpretation provides guidance and clarifies the application of the recognition and measurement criteria in IAS 12 "Income Taxes" when there is uncertainty over income tax treatments. The adoption of the above standard, amendments and interpretations has not had an impact on the financial statements of the Company.

4. RECLAMATION BONDS

	March 31, 2021	September 30, 2020
MPD	\$ 97,500	\$ 50,000
Trapper	-	30,284
Mohave	46,867	49,714
Kahuna	40,000	40,000
	<u>\$ 184,367</u>	<u>\$ 169,998</u>

The MPD portion of the reclamation bonds is a \$50,000 security deposit paid to the Ministry of Energy, Mines and Petroleum Resources of British Columbia. The security deposit was paid as a part of the permit application. In January of 2021 the security deposit was increased by an additional \$47,500.

The Trapper portion of the reclamation bonds is a guaranteed investment certificate held in a financial institution as security for reclamation obligations pursuant to the Mines Act of the Province of British Columbia and Health, Safety and Reclamation Code for Mines in British Columbia. The reclamation bond amount of \$30,284 is presented as a non-current asset. The investment bears the variable interest rate of prime less 2.60% per annum and matures on April 24, 2021. In October 2020, the Trapper bond was refunded to the Company and then transferred to Brixton Metals Corporation as it formed part of the sale of the Trapper property Brixton Metals Corporation. See note 5c for full details on the Trapper property sale.

The Mohave portion of the reclamation bonds is a cost estimate to be paid by the Company to the Bureau of Land Management Kingman Field Office in the state of Arizona, USA. This cost estimate of (US\$37,270 - \$46,867 - 2021), (US\$37,270 - \$52,875 - 2020) is for the Company to meet its anticipated reclamation requirements.

For the Kahuna resource property in the territory of Nunavut a reclamation Letter of Credit is recorded in reclamation bonds. A \$40,000 "Letter of Credit" was arranged with BMO on August 29, 2017 and amended on October 4, 2017. This letter is held by the financial institution as security for possible reclamation obligations pursuant to Land Use License KVL315B01, issued by the Kivalliq Inuit Association which authorizes surface exploration activities on Inuit Owned Land parcel CI-15. The Letter of Credit is a certificate which is extended automatically from year to year, and available to the Kivalliq Inuit Association upon written demand.

a. MPD Property

On November 29, 2018, the Company announced it has entered into a purchase agreement to acquire 100% ownership of the 78.5 square kilometres consolidated Man, Prime and Dillard properties, the "MPD Project" in south-central British Columbia. The MPD Project is within the Quesnel Trough, British Columbia's primary copper-producing belt, and has characteristics similar to the neighboring alkaline porphyry systems at the Copper Mountain Mine to the south, New Gold's New Afton Mine to the north.

In relation to the offer, the Company paid \$100,000 in cash and issued 360,000 post-consolidated shares valued at \$162,000, being the fair value of the shares at issuance date, which were paid on the closing of the transaction. A further \$100,000 was paid in March, 2019. The agreement is subject to a 1.25% to 2% net smelter return royalty, which is payable on three of a total of 28 mineral claims. No royalties are payable on the remaining 25 claims.

A mineral exploration permit was obtained for the MPD property. In connection with the permit a refundable \$50,000 security deposit was posted with the British Columbia Minister of Finance. And additional \$47,500 was posted in January, 2021 (see Note 4).

5. EXPLORATION AND EVALUATION ASSETS (continued)

a. Man, Prime and Dillard Property (continued)

As part of the MPD permit, the Company agreed to assume the clean up obligation of a previous operator, as well as its own obligations related to current exploration. As a result, the amount of \$100,000 has been recorded in Exploration and Evaluation assets, Geological consulting, and the liability is recorded in Accounts Payable and Accrued Liabilities.

b. Mohave Property

On March 4, 2019, the Company announced that it had entered into a letter of intent to acquire 100% of the Mohave copper-molybdenum-silver porphyry property ("Mohave") in Mohave County, Arizona, USA, from Bluestone Resources Inc. ("Bluestone").

In relation to the acquisition, the Company paid \$50,000 in cash and issued 232,558 post-consolidated common shares at a fair value of \$100,000 in Kodiak (formerly Dunnedin) shares upon closing of the transaction, which occurred on May 22, 2019. The Company has committed to issue 100,000 post-consolidated shares upon the public disclosure of a 43-101 resource of the project, 100,000 post-consolidated shares upon the public disclosure of a preliminary economic analysis for the project, 100,000 post-consolidated shares upon the public disclosure of a pre-feasibility or more advanced study for the project, and a 0.5% NSR royalty on the Mohave claims and on a 2km area of interest around the Mohave claims.

In addition to the above commitments to Bluestone Resources Inc., the Company is committed to pay US\$ \$1,000,000 to the original optionor of the Mohave property no later than 30 days after the Company announces a production decision or has secured financing to implement such a decision.

In addition to the 0.5% NSR royalty to Bluestone, Mohave property is subject to a 3.5% NSR royalty to the original optionor of which 1% can be bought back for US \$1,000,000.

The measurement of the commitments and NSRs have not been reflected in the asset acquisition transaction and such liabilities will be recognized as the related activities that give rise to the liabilities occur.

The breakdown of the transaction is below:

Assets acquired:

Acquisition costs	\$	115,158
Exploration and evaluation assets		34,842
	\$	150,000

Consideration:

Cash	\$	50,000

5. EXPLORATION AND EVALUATION ASSETS (continued)

c. Trapper Property (continued)

During the year ended September 30, 2020, the Company entered into an agreement with Brixton Metals Corporation ("Brixton") to dispose of its 100% interest in the Trapper property for net consideration of \$918,119, to be satisfied by an initial payment of \$100,000 in cash and 2,324,393 Brixton shares. The shares were recorded at the closing price of \$0.365 per share on the date of receipt of the shares (September 8, 2020). Subsequent to year end, the Company released the \$30,284 Trapper bond to Brixton. See table below for a summary of the transaction.

Trapper Property Sale	
Cash	\$ 100,000
Fair value of Brixton shares on Sept 8	848,403
Less: reclamation bond	(30,284)
Net consideration received	918,119
Carrying value of Trapper Property	-
Gain on Sale of Trapper Property	\$ 918,119

During Q2 the Company sold 1,200,000 of the Brixton shares, resulting in a loss of \$112,285. At March 31, 2021 the Brixton share price was \$0.235, this resulted in a fair value adjustment on the Brixton marketable securities of \$195,187 recorded to other comprehensive income (loss).

d. Kahuna Property

On November 4, 2014, the Company signed an option agreement to acquire a 100% interest in the Kahuna Diamond project located in Nunavut, Canada. Under the terms of the agreement, the Company had to make cumulative exploration expenditures on the project totaling \$5,000,000, issue 2,200,000 common shares, and pay \$700,000 over four years. On April 30, 2017, the Company entered into a Letter Agreement where it accelerated its option agreement to acquire a 100% undivided interest in the Kahuna project by paying the remaining cash (\$100,000 upon signing – paid, and \$250,000 upon completion of its financing – paid, and issuing the remaining 880,000 common shares – issued). The Company is no longer required to meet the remainder of its previously disclosed \$5 million cumulative exploration expenditures commitment.

The option agreement contained a Royalty Agreement clause which stated the following; In accordance with the terms of the Royalty Agreement, the Kahuna Property is currently subject to two separate two percent (2%) gross overriding royalties on diamonds (each, a "GOR" and together, the "GORs"), and two separate two percent (2%) net smelter return royalties (each, an "NSR" and together, the "NSRs") on all other minerals derived from the Property. Pursuant to the Royalty Agreement, one percent (1%) of each GOR may be purchased from either of the parties for \$2 million, and one percent (1%) of each NSR may be purchased from either of the parties for \$2 million.

On December 11, 2015, the Company entered into an agreement with Kel-ex Development ("Kel-ex"), a private company controlled by a former advisor to the Company, whereby Kel-ex will provide equity financing equal to one-third of the Company's diamond processing and other laboratory costs incurred through a laboratory controlled by the advisor. Kel-ex has continued to maintain its interest as per the agreement. The advisor has also agreed to provide certain professional and technical advisory services to the Company, in exchange the Company has granted a right-of-first-refusal to Kel-ex on the sale of its interests in the Kahuna diamond project.

5. EXPLORATION AND EVALUATION ASSETS (continued)

d. Kahuna Property (continued)

On May 11, 2017, the Company proceeded with its intention to spin out its rights to gold mineralization at the Kahuna Property. On July 20, 2017, the Company released details of the transaction to spin out a company, Solstice, that would independently explore the Kahuna Property for gold.

During the period ended December 31, 2017, Dunnedin and Solstice entered into the Kahuna Property Land Transfer and Rights Agreement, which set out the terms to which the Company will transfer mineral claims located in Nunavut to Solstice. The transferred claims are free and clear of any and all mortgages, charges, pledges, liens, licences, privileges, security interests, royalties, encumbrances, claims or rights or interest attaching to or affecting property, whether recorded or unrecorded, and whether arising by agreement, statute or otherwise under applicable laws, apart from the GORs and the NSRs.

Due to COVID-19 uncertainty surrounding the Company's ability to access the project for further exploration or sale, as well as the Company's decision to enter the copper industry, the Company has decided to write-down the value of the project to \$nil.

The Kahuna property is subject to an Annual Assessment Expenditure Commitment on active claims ranging from \$110,000 to \$550,000 annually over the next five years. All claims are in good standing until 2022. No expenditures are required in 2021.

6. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Accounts payable include primarily amounts owing for Company's exploration programs, and general corporate expenditures.

The Company is disputing \$287,154 of accounts payable that arose in 2011 and the Company believes these amounts will be settled without payment. This disputed amount is included in the 2021 Q2 and 2020 year end balance.

7. RELATED PARTY TRANSACTIONS

The Company's transactions with related parties during the six months ended March 31, 2021 and 2020 consist of transactions with directors, officers, and shareholders of the Company.

Amounts paid and accrued to key management personnel, officers and companies controlled by directors and officers:

In relation to the flow through share financings, the Company recorded \$2,881,971 as deferred income tax expense (2020 - \$646,570), a net flow through premium liability of \$379,478 was reversed during the period (2020 - \$245,081), and \$4,096,011 was recorded as a deferred tax liability (2020 - \$1,214,040).

10. FINANCIAL INSTRUMENTS

The Company's financial instruments consist of cash and cash equivalents, amounts receivables, advances and deposits, marketable securities, accounts payable and accrued liabilities and CEBA loan. The fair values of these financial instruments approximate their carrying values, other than cash and marketable securities which is carried at fair value.

Marketable securities are a Level 1 financial instrument.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following summarizes fair value hierarchy under which the Company's financial instruments are valued:

10. FINANCIAL INSTRUMENTS (continued)

- Level 1 – fair values based on unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – fair values based on inputs that are observable for the asset or liability, either directly or indirectly; and
- Level 3 – fair values based on inputs for the asset or liability that are not based on observable market data.

The Company examines the various financial instrument risks to which it is exposed and assesses any impact and likelihood of those risks. The Company's risk exposures and their corresponding impact on the Company's consolidated financial instruments are summarized below.

Liquidity risk is the risk that the Company cannot meet a demand for cash or fund its obligations as they come due. As at March 31, 2021, the Company had a cash and cash equivalents balance of \$14,160,943 (September 30, 2020 - \$2,572,178), a marketable securities balance of \$264,232 (September 30, 2020 - \$767,050) to settle current liabilities of \$801,708 that are due within one year (September 30, 2020 - \$1,109,901).

The Company intends to finance future requirements from its existing cash reserves together with share issuances, the exercise of options and/or warrants, debt or other sources. There can be no certainty of the Company's ability to raise additional financing through these means.

Credit risk is the risk that the counterparty to a financial instrument will fail to meet their payment obligations, thus this risk is primarily attributable to cash and cash equivalents. The Company maintains its cash and cash equivalents with high-credit quality financial institutions, thus limiting its credit risk. As at March 31, 2021, the Company had a receivable balance of \$183,000 (September 30, 2020 - \$76,119), which primarily relates to GST receivable from the Federal Government of Canada and proceeds from the sale of marketable securities. There was \$186,140 in Advances and Deposits as at March 31, 2021 (September 30, 2020 - \$209,440) which is made up of predominately of prepayments to vendors.

Interest rate risk is the risk that the fair values or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. As at March 31, 2021, the Company does not have any interest-bearing loans or liabilities outstanding. All receivable and payable balances are current and as such, are not subject to interest.

Currency risk relates to the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in foreign currency. As at March 31, 2021, the Company has in US dollars US\$15,379 or C\$19,340 in equivalent (September 30, 2020 – US\$20,949 or C\$27,943 in equivalent).

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, and commodity and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return. Investments in equity instruments which are classified as fair value through other comprehensive income (loss) and are measured at fair value, are listed on public stock exchanges, including TSX-V and OTC-QB. The Company is exposed to market price risk on its marketable securities. The Company's marketable securities consist of one listed entity called Brixton Metals Corporation. A 10% change in quoted market price for Brixton Metals Corporation at March 31, 2021 would result in a change to other comprehensive income(loss) and fair value of marketable securities of \$26,423.

11. CAPITAL DISCLOSURES

The Company's objective, when managing capital, is to ensure sufficient resources are available to meet day to day operating and exploration requirements and to safeguard its ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders.

In May of 2020, the Company received the \$40,000 interest free Canada Emergency Business Account (CEBA) loan. The program is operated by the Government of Canada. If the loan balance is paid on or before December 31, 2022, there will be loan forgiveness of 25% or \$10,000.

The Company is not subject to externally imposed capital requirements. There were no changes in the Company's approach to capital management during the period. In the management of capital, the Company includes the components of shareholders' equity, as well as cash and cash equivalents.

12. SEGMENTED INFORMATION

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker, or decision-making group, in deciding how to allocate resources and in assessing performance. All of the Company's operations are within the mineral exploration sector in Canada and the USA (Note 5). No material assets and revenue exist in the USA for separate presentation, other than what is included in Note 5.

13. SUBSEQUENT EVENTS

On April 19, 2021 the Company announced that it had entered into a purchase agreement to acquire a 100% interest in the Axe Copper-Gold Property from Orogen Royalites. The property is located 20 kilometres north of the town of Princeton in BC and is immediately south of, and contiguous with the Company's MPD property.

The transaction details are as follows:

- 950,000 Kodiak shares upon closing of the transaction; (issued)
- A 2% net smelter returns royalty on the Axe property of which 0.5% may be purchased by Kodiak for C\$2,000,000 at any time;
- A cash payment equivalent to the value of 75,000 Orogen shares up to a maximum of C\$50,000 upon the completion of 5,000 metres of drilling on the Axe Property;
- A cash payment equivalent to the value of 200,000 Orogen shares up to a maximum of C\$150,000 upon the announcement of a measured or indicated mineral resource estimate of at least 500,000,000 tonnes at a grade of at least 0.40% copper equivalent on the Axe property; and
- A cash payment equivalent to the value of 250,000 Orogen shares up to a maximum of C\$200,000 upon the completion of a feasibility study on the Axe Property.
